AEROSPACE

BLITHE DEFENSE IS A LEADING PROVIDER OF CUSTOM FABRIC COVERINGS FOR THE AEROSPACE INDUSTRY, OFFERING INNOVATIVE SOLUTIONS FOR THE MOST CHALLENGING APPLICATIONS.

Our custom made protective coverings are designed to safeguard and increase the lifecycle of your products, such as spacecraft and aircrafts, or specific parts or sections of each, including fuselage, propellant tanks, and boosters, creating longterm value for our clients. Using advanced technology and meticulously accurate design methods, we create unparalleled quality, fit & function.

We understand the critical importance of protecting valuable equipment and components from the elements and are committed to providing our clients with the best possible solutions to meet their needs.

Blithe Defense is located in the epicenter of aerospace in Southern California, where all our products are proudly made in the USA.

At Blithe Defense, we pride ourselves on providing customized solutions for our clients' specific needs. Our team of experts is committed to delivering exceptional service, ensuring our clients are completely satisfied with our products. Contact us today to learn more about our capabilities and how we can help your organization achieve success.

PRECISION 3D TEMPLATING

The Prodim Proliner provides professional dimensioning for production, helps create accurate digital templates in only minutes, & saves time and money on material by preventing measuring errors.

AUTOMATED PLOT CUTTER

The Autometrix Radium Automated Plot Cutter is equipped with a full feature-set & built-in flexibility to cut the widest range of materials with speed & precision.

HOT AIR SEAM WELDING

The Miller Weldmaster T600 Extreme uses hot air welding technologies with an array of seam types & extended fabric handling supporting consistent design and controls.

MILITARY GRADE

Our products are manufactured using military grade materials and construction techniques. Strong, sound & long lasting.

INDUSTRIAL FINISHES

A wide range of industrial finishes are available to coat & finish coverings, from flame retardants to waterproofing & more.

SUSTAINABLE

Using environmentally conscious materials & smart software to generate less than 1% cutting waste, we are leading the charge with sustainable materials & processes.
